

In the DC Metropolitan area, XM Radio is the only purveyor of my generation's kind of music; viz., that of the 30's, 40's and 50's! Plus, any other kinds we want to listen to. We can listen to excerpts from the old Radio Shows and the Stars who headlined them. We can get weather and traffic with just a twist of a knob. It should not be up to the National Association of Broadcasters to dictate what I am permitted to hear.

I respectfully urge the FCC to reject the NAB'S petition 04-160, and to support XM's ability to provide the kind of programming that i deserve.
